

COMMUNITY LETTER

Date: 05th February 2023

Our team has identified the community from the Aviratha Charitable Trust and the major problems faced by it:

- The major concern faced by the community was in the collection and distribution of school textbooks and notebooks for the backward students in the government schools.

The team has come up with a solution for our trust, an app that will be designed by the team to deal with the problems being faced by the community.

- The teachers working in school will have to list out the number of books and notebooks requirement (class wise) through Teacher's login page.
- The admin of the trust will verify it and upload the total cost needed for the school's requirement and will display it in the app through admin page.
- Through volunteer login page the volunteers will paying and provide the books
- The default language of the app would be English and Kannada can be added as an additional language.

The app will be delivered to the **Students' Community** by us and the community head agrees to help us in giving their valuable knowledge and support for this project.
